BOOKING DETAILS

In our private sunrise meditation and ritual we return to the source of all, the Great Mother, to receive the blessings of Isis at her beautiful island temple at Philae. This isle represents a fusion of three great civilizations – Egyptian, Greek and Roman. The presence of Isis is palpable in the inner sanctum, the Holy of Holies of her temple.

While we are enjoying our breakfast on sundeck we sail to Kom Ombo, to visit the only dual temple in Egypt. This dramatic temple poised between the edge of the river and the encroaching desert sand was dedicated to two gods - Sobek the crocodile god of strength, fortitude, fertility and rebirth, and Horus the hawk-headed son of Isis and Osiris. The duality of light/ dark, yin/yang, conscious/unconscious is apparent in this ancient site. One of the most powerful places in Kom Ombo is the Seat of Neutrality, which is placed on the exact centerline between the parts of the temple that are dedicated to Horus / Sobek and Light / Dark. We will dock near Kom Ombo for the night. Overnight Afandina on an Island.

BOOKING DETAILS

Sail to Edfu through the countryside.. In the afternoon we visit Edfu and the Temple of Horus one of the most beautifully preserved in Egypt. When you approach the temple complex, you become aware of its enormous dimensions, with a vast courtyard, a forest of towering columns and high ceilings. The side chambers of the Temple of Horus show the complexity of ancient rites; they include a healing chamber, a perfumery, and singers' rooms. One chamber, called the House of Life, stored all of the sacred texts used in seasonal and daily rituals. Horus is associated with higher vision and clarity. The eye of Horus greatly relates to his myth and power. The left eye represents the lunar, the moon, the intuitive, the feminine energy. The right eye is connected to the solar, the masculine, the action, and the yang energy. Both are necessary for true power to exist. In a private empowerment we will work with balancing the lunar and the solar energies inside of us and awaken our intuitive centers to be able to experience a higher perspective. Sat Apr 21, 2018

BOOKING DETAILS

We spend a day of sailing from Esna to Luxor.
In the afternoon we visit to the magnificent Karnak Temple. Karnak is the biggest temple complex in Egypt - and a very special place. It is dedicated to the Gods Amun and Mut. As you enter, you walk between a row of rams-headed sphinxes, which originally connected Karnak with Luxor Temple two miles away. Take some time to visit the sacred lake of Karnak, ask for purification and place your intention in your mind's eye into the lake.

Outside the main halls is a small chapel dedicated to Sekhmet, her consort Ptah and their son Nefertum. Sekhmet is the lioness Goddess of compassion and courage. She is associated with feminine fire and healing through destruction. She is a renowned healer and known for her magic and ability to hunt down an imbalance at its origin. In a potent private initiation we will honor the Goddess and receive the gift of courage to be our authentic selves.

This evening we will pay a night visit to the Temple of Luxor and work with the brilliance of the human body. Here we are able to see that this temple is built like a human body--the outer layers represent the feet and as we move deeper into the temple, we move towards the head, where the holy of holies, the inner sanctuary is located. This is a wonderful place to focus on physical healing. As you walk through the body of this temple, notice how your body feels and re-member radiant health. Awaken the parts of you that are sleeping, activate divinity codes and turn on your inner light.

TUE Luxor / Cairo / Khan El Khalili Bazaar

APR
24

In the morning we take a short **flight to Cairo**... We then we visit **Khan El Khalili Bazaar** One of the oldest shopping districts in the world, the Khan El Khalili, is like going back to the time of Ali Baba and Aladdin. Merchants have been trading on this site since at least the 14th century. In 1384 an emir named Al Khalili built a great Khan here, a three-story hostelry intended to accommodate traveling merchants and their wares. Buyers visited the khan for the goods brought in on the merchant caravans, and the selling and bartering spread to the streets around. the earliest surviving parts of the bazaar today are several great stone gateways that date back to the 1500's.
